57-59 Barbara Crescent Minor Variances

I would like to offer strong support for the minor variance requests brought forth by my neighbours at 57 Barbara Crescent, and 59 Barbara Crescent. I own [REDACTED], the property across the street.

Boosting housing supply to address affordability is of the utmost importance for the many renters struggling right now. This project is an exemplary way the City can help to increase the availability of affordable rental units. These small units will be highly affordable due to their size, in comparison to the soaring average rent in the City.

In supporting this application, the committee has an opportunity to help alleviate the problem of unaffordable housing in our City. Our neighbourhood welcomes the additional units as we look towards solving a greater problem.

I appreciate your time and consideration.
