To Whom It May Concern

This email is about the structure on the front lawn at 920 Keewatin Pl.

First and foremost a structure of this nature should not or better yet is not permissible on the front lawn in a residential neighbourhood. It is a cumbersome and ugly box. It is not a gazebo. By permitting this you are opening up a can of worms (for lack of a better expression). You will be creating havoc for yourselves with similar situations in the future and other neighbourhoods. As a neighbour in the immediate area I can simply say I do not appreciate what this thing is let alone where it is situated.

I hope the committee can come to a conclusion that suits the neighbours and convey to the specific homeowner what their reasoning is based on the city's own related guidelines and rules.

Sincerely

Gary Dines
