Re: A 2023-105 - 120 Rossford Cres, Kitchener

Metrolinx is in receipt of the minor variance application for 120 Rossford Cres to facilitate a single detached dwelling with 2 additional attached dwellings. Metrolinx's comments on the subject application are noted below:

- The subject property is located adjacent to Canadian National Railway's (CN Rail) Guelph Subdivision which carries Metrolinx's Kitchener GO Train service.
- As CN Rail is the owner of the railway corridor, they are the authority to provide commentary on matters related to rail safety. Metrolinx suggests that CN Rail is circulated the application for review.
- The Proponent is advised the following:
 - **Warning:** Metrolinx and its assigns and successors in interest operate commuter transit service within 300 metres from the subject land. In addition to the current use of these lands, there may be alterations to or expansions of the rail and other facilities on such lands in the future including the possibility that Metrolinx or any railway entering into an agreement with Metrolinx or any railway assigns or successors as aforesaid may expand their operations, which expansion may affect the environment of the occupants in the vicinity, notwithstanding the inclusion of any noise and vibration attenuating measures in the design of the development and individual units. Metrolinx will not be responsible for any complaints or claims arising from use of such facilities and/or operations on, over or under these lands.

Should you have any questions or concerns, please do not hesitate to contact me.
