Reasons for Delegation Request: Our Impact Report tells the story of Reep's work over the last fiscal year. Our programs and services supported 1,101 meaningful actions on climate change. People took tangible steps like planting a tree, switching to a high-efficiency showerhead, or adding attic insulation, to help make our community more sustainable. These actions add up. They will help our community meet the ambitious goal of an 80% reduction in emissions by 2050, as set out in TransformWR.

Thanks Shannon!

We recognize the enduring presence of the Indigenous peoples who we share this land with today, and their contributions to our community. [Read our full territorial acknowledgement.](#)
