Hi I live off Jansen on Huber in the east end of Kitchener. I do not want nor do we need another condominium tower around here with the new one on Weber and Fergus not even done! This is ridiculous! Is anything that has been built or will be built in the near future low income housing?? I think not 😞 I know that the majority of these places are going to be rented for outrageous amounts or sold for the same! Do you people in the planning dept know what is going on in the community? So no to the new tower unless it is guaranteed to be for the middle class 😞 thx for asking , hope you guys take the comments to heart or why bother!?! Oh and I guess the places over there will have to get torn down 😞 so another reason for NO!!

Hi Eric,

I would like to appeal the planning application for 2834 King St E. On the website it directs me to contact the City Planning Contact so I am emailing to do so.

I can be contacted at this email or

Jacqueline Rellinger

Good morning,

I am writing in regards to the proposed plaza development taking place at 2934 King. St. E. I am the current owner of the restaurant The Grill Burger Kitchen. Could you please provide some information about what will happen to the current commercial tenants?. Will we be accommodated the new building?. Some of us still have a few years left on our leases. And if everything gets approved, approximately how long before construction begins?. Any information will be really appreciated. Thank you for your help in this matter.

Regards,  
Ahmer Sarfaraz
