You don't often get email from

[why this is important](#)

Hi Eric,

Its really nice that you guys are developing kitchener but the infrastructure can't handle all this development. I've been living in kitchener for close to 35 years and my kids can't even get into swimming or other events as they are always packed within few hours of opening. Its nice that its developed but what are you guys doing to help the infrastructure. I am against all this development as there are massive lines for anything like service canada or getting license renewals or any events for kids. I've spent my whole life here and my kids can't even go to swimming or soccer as it fills up so quick. These are not being addressed.

Thanks,
Raj
