<b>Total New Units:</b>	<b>780</b>	<b>716</b>		

### Projects to Streamline Development Approvals

Site Plan folder updates
<b>Description:</b> Updating the file management software (AMANDA) for site plan applications to continue process improvements and prepare for the public portal which will allow applicants to submit applications, make payment and monitor progress.
<b>Current Status:</b> Underway A multi-disciplinary team of development review staff are working with the technology project manager to identify workflow improvements to integrate into folder updates.
<b>Next Steps:</b>

The working team will be testing folder updates once complete later this summer. Once testing is complete, the updated folders will go live for use on site plan applications with updated procedures and training to support staff.

**Project Lead:** Tanya Roberts, Project Manager (Planning)

**Completion date:** Q4 2024
