

Hey so my opinion for city councilors as to closure of cts and programs.

It's so many more things outside of consumption and drug abuse treatment. CTS is a vital community support in ways of supporting the community's most damaged and hurting members.

Addiction is addiction - no matter if it's booze or drugs, gambling, TV binge watching

Everyone who has an addiction, at times in their active addiction, feel so out of place . At times can feel so unwelcome in their own skin.

CTS services give those of us a sense of self worth

A purpose. A will to live.

The fellow community members who work at the CTS at 150 Duke St location go up and beyond their basic duties.

The hearts and passion that these wonderful people show.

It's so heart breaking that I might lose my support team... why??

I'd like your support in finding a solution to save KW's CTS and their services
