**Subject:** Inclusionary Zoning

Email Sent By: [REDACTED]

It would be a tragedy to postpone the Inclusionary Zoning Bylaw to 2026.

We live in a community where the housing crisis in Kitchener-Waterloo is worsening and affordability slipping further out of reach. Efforts to meet the needs of many of our citizens are falling short, particularly among women.

Over the past few years, homelessness and affordability have often been neglected by the City of Kitchener. It is time to reverse that tendency and take on the task of providing homes (not only but certainly including shelters) for those in need.

Sincerely,

Dr. Gail R. Pool (he/him)
