To the Right Honourable Committee

As pertains to the application no. A 2025-031, we request that this request not be passed. We believe that this change will lead to an increased noise and traffic and a decrease in safety and privacy in our up until now small, quiet cul-de-sac. Particularly in regards to the dangers the increased traffic would present to the many small children who live and play on our small neighborhood. Thank you for being willing to listen.

Sincerely,  
Dana-Lee van Es
