Re: **A 2023-023 - 202 Breithaupt St, Kitchener - MV**

Metrolinx is in receipt of the minor variance application for 202 Breithaupt St to facilitate the extension of the existing dwelling and to permit a fifth dwelling unit within the existing dwelling. Metrolinx's comments on the subject application are noted below:

- The subject property is located within 300 meters of Metrolinx's Guelph Subdivision which carries Metrolinx's Kitchener GO Train service.
- As per section 3.9 of the Federation of Canadian Municipalities and Railway Association of Canada's Guidelines for New Development in Proximity to Railway Operations, the Owner shall grant Metrolinx an environmental easement for operational emissions. The environmental easement provides clear notification to those who may acquire an interest in the subject property and reduces the potential for future land use conflicts. The environmental easement shall be registered on title of the subject property. A copy of the form of easement is included for the Owner's information. The applicant may contact Derek.Brunelle@Metrolinx.com with questions and to initiate the registration process.
- The Proponent shall provide confirmation to Metrolinx, that the following warning clause has been inserted into all Development Agreements, Offers to Purchase, and Agreements of Purchase and Sale or Lease of each dwelling unit within 300 metres of the Railway Corridor
 - **Warning:** The Applicant is advised that the subject land is located within Metrolinx's 300 metres railway corridor zone of influence and as such is advised that Metrolinx and its assigns and successors in interest has or have a right-of-way within 300 metres from the subject land. The Applicant is further advised that there may be alterations to or expansions of the rail or other transit facilities on such right-of-way in the future including the possibility that Metrolinx or any railway entering into an agreement with Metrolinx to use the right-of-way or their assigns or successors as aforesaid may expand or alter their operations, which expansion or alteration may affect the environment of the occupants in the vicinity, notwithstanding the inclusion of any noise and vibration attenuating measures in the design of the development and individual lots, blocks or units.

Should you have any questions or concerns, please do not hesitate to contact me.
